Qualities

- ◆ Dynamique
- ◆ Curieux
- ◆ Solidaire

Hobbies

- ◆ Video games
- ◆ Movies

Objective

Self-taught for 5 years in the development of web projects, in particular the design of websites and applications. Autonomous, but enjoying teamwork with on-site or remote employees.

Passionate about new web technologies, I am looking for new challenges to overcome.

Experience

Web developer

Apr, 2023 - May, 2023

Designing a Chat Application

- Use of the Symfony Framework as the basis of the application.
- Use of HTML & CSS and JavaScript (JQuery) for the design of the application with animation effects.
- Using Ajax to dynamically update the page and provide a more pleasant user experience.
- Use of the Doctrine ORM for the manipulation of the MySQL database.
- Analysis and Testing of the application with PHPUnit.
- Use of GIT for project versioning.

Web developer

Apr 10, 2023 - Apr 30, 2023

Site Design for a Painter

- Use of the Symfony Framework as the basis of the application.
- Use of HTML & CSS and JavaScript (JQuery) for the design of the application with animation effects.
- Use of the Doctrine ORM for the manipulation of the MySQL database.
- Analysis and Testing of the website with PHPUnit.
- Improved site referencing.
- Use of GIT for project versioning.

Web developer

Nov, 2022 - Dec, 2022

Designing a blog

- Use of PHP for the Back-End, and addition of a blog administration.
- Use of HTML & CSS and Framework Bootstrap for the design of the application with animation effects.
- Use of a MySQL Database for data storage.
- Use of GIT for project versioning.
